Partnering With You

Our designs and illustrations are developed through a close client/designer relationship in which ideas are bounced back and forth through a detailed proofing process. We'll develop your project through the transfer of files and information via electronic mail, modem and courier services. Accessible via most electronic mediums, we welcome the opportunity for you to review our growing online portfolio of satisfied customers. Visit The Camera Ready Cafe' at <http://www.camerareadycafe.com>. Your emails are welcomed at info@camerareadycafe.com.

What We Can Do For You

The success of your business is our first priority. After all, your success becomes ours. So, we are more than happy to sit down with you to discuss how your web site can make a positive impact on your business or organization.

- We can help you establish a new web presence for yourself, your business or your organization.
- We can help make your current web site more effective.
- We can show you how to use the power of The Internet to build your business and boost your bottom line.

Let's Get Together

Let's get together once you've collected your materials. As a courtesy, your initial consultation with us is complimentary. Afterwards, we'll review your information and fax a customized cost proposal to you. Should you have questions about cost, one of our representatives will be happy to assist you.

Our pricing is designed to meet your needs and your budget. We offer advice on aspects of your web site plan that can save you money. The complete job is quoted once we have considered all the aspects of your site. When the pricing proposal is accepted, a deposit of 50% is required to begin the actual web site development. Any new concept development above the initial site development is priced at current industry standards.
